

Youflow®

SMOOTHBORE BREATHING CIRCUIT

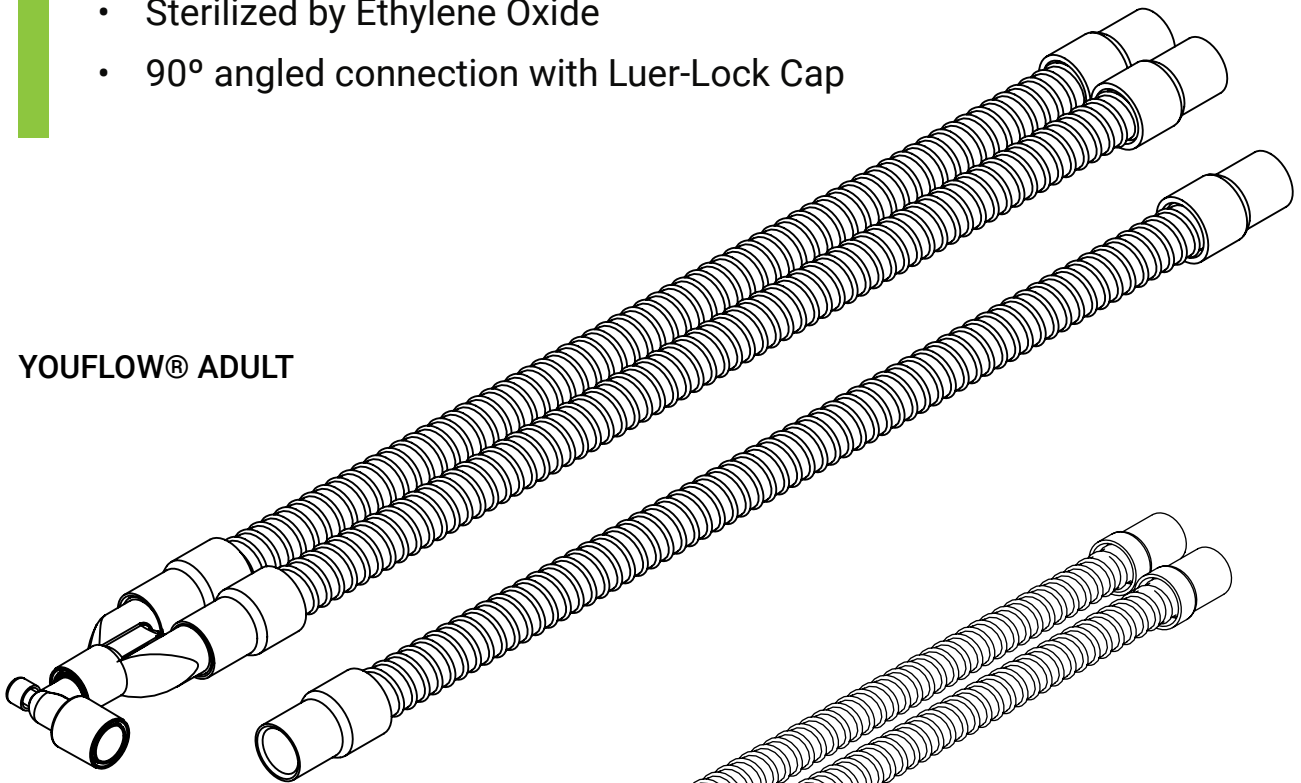

**GREATER
DURABILITY**

The **YOUFLOW® BREATHING CIRCUIT** serves as a link between the patient and mechanical ventilation or oxygen therapy equipment. It is used to transport oxygen or other gases in patients undergoing oxygen therapy, invasive or non-invasive mechanical ventilation, when the maintenance of breathing is necessary for a long period of time.

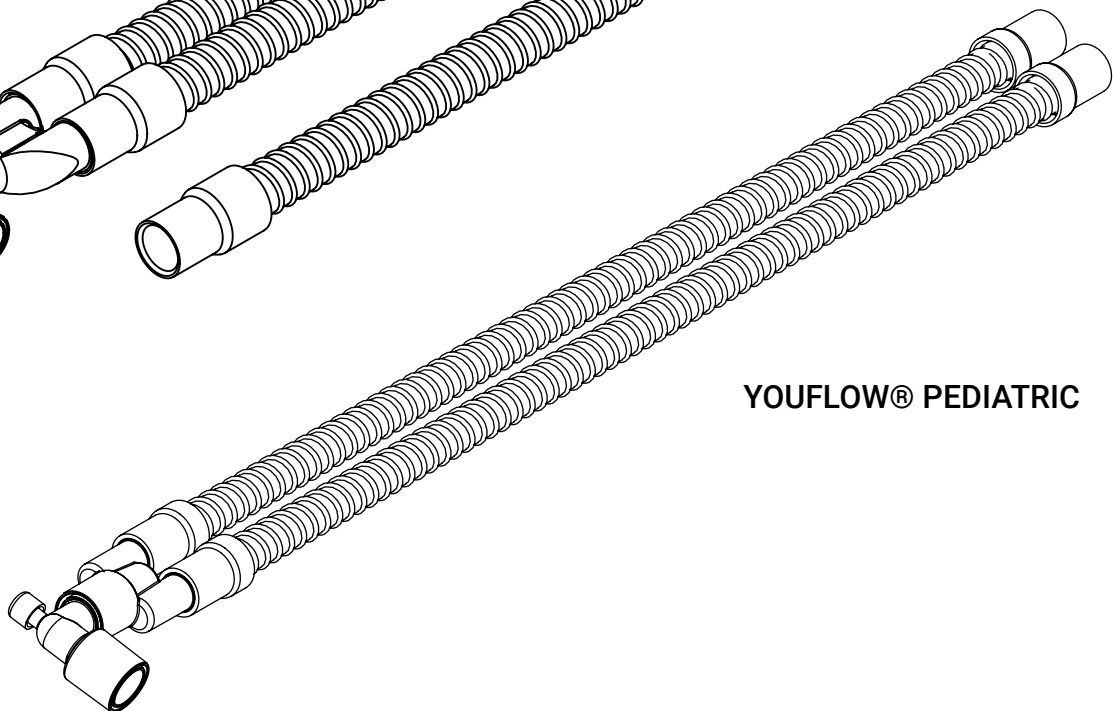

Breathing Circuit

- Tube with smooth inner face
- ISO standard conical connections
- Sterilized by Ethylene Oxide
- 90° angled connection with Luer-Lock Cap

YOUFLOW® ADULT

YOUFLOW® PEDIATRIC

Product/Description	Code	Anvisa
