

Yourologic[®]

ELLIK EVACUATOR

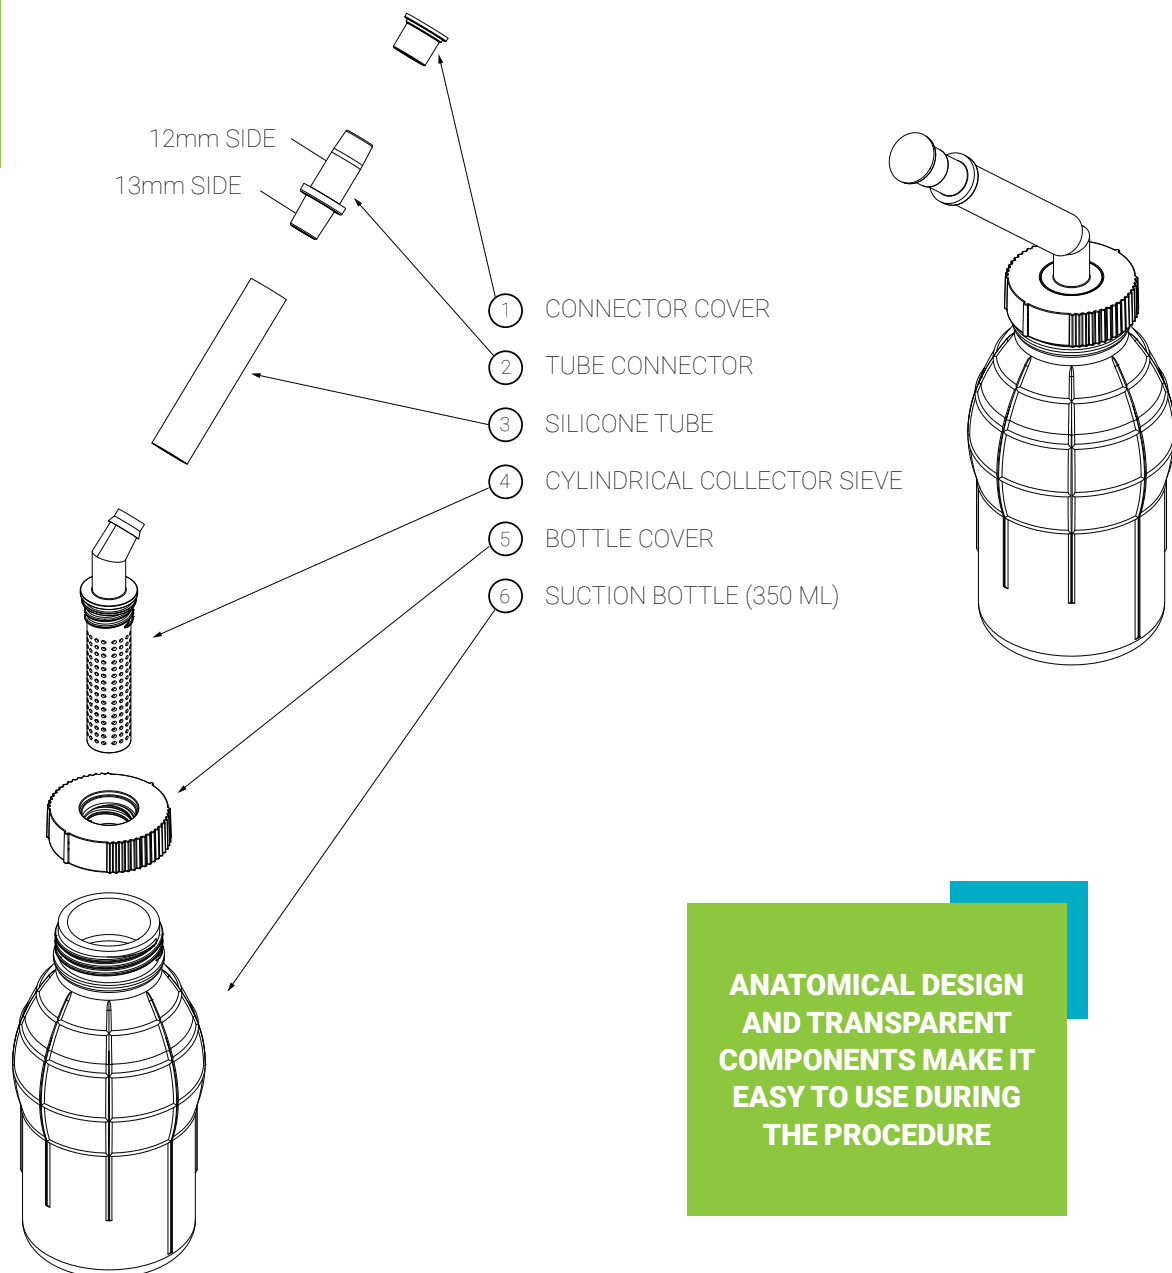

**SINGLE-USE,
DISPOSABLE
PRODUCT**

YOUROLOGIC[®] ELLIK EVACUATOR, manufactured by ScavMedical, is a single-use disposable product used in bladder emptying and transurethral prostate resection procedures (TURP). It allows irrigation, tissue aspiration, and stones, clots and fragments removal. It has a cylindrical sieve that separates and collects the residue facilitating the sending of these materials for analysis.

Better efficiency in irrigation and evacuation

- High density polymer bottle (no memory effect)
- Transparent components for better viewing
- Anatomical design for easy handling
- Cylindrical sieve for separation and retention of fragments
